Bravo™
Deodorizing Urinal Screens

Outstanding Restroom and Urinal Odor Control

Innovative Bravo urinal screens offer powerful deodorizing performance with strong fragrance release that lasts longer than standard products. The unique use-activated feature delivers additional odor control. The patented shape provides superior fit in all urinal styles with a ribbed surface designed to reduce splashing.

- Bacteria action deodorizes and cleans urinal and drain
- Powerful and long-lasting performance
- Eliminates need for special sprays
- Prevents calcium scale build-up
- Maximizes drainflow
- Use-activated
- Environmentally friendly
- Biodegradable
- Private label branding available

Splash Reduction Data
Random delivery pattern of 300ml of liquid over a urinal measuring the droplets caught on a blotter paper outside the edge of the urinal yielded the following results. Greater than 80% reduction in splash vs. a urinal without Bravo screen in it.

Long Lasting Fragrance Release
Milligram fragrance evaporated from the Bravo urinal screen as a function of time throughout an eight week period.

QTY: 72 screens per case (6 x 12 screen inner boxes)

Exodor Deodorizing Urinal Blocks

Non-Para Formula!

- Powerful performance
- Does not contain para, which is harmful to human health
- Environmentally friendly
- Economical

QTY: 150 tablets per case

Exodor Deodorant Discs are powered by essential oils that react with odor molecules to form odorless compounds, rather than simply masking smells with fragrance.

- Available in two sizes: Classic (big) and MAGNUM (bigger)
- Designed to last longer
- The MAGNUM lasts several weeks!
- Place disc inside a disc holder or on a self-adhering hook. Conceal it in an inconspicuous place such as behind the toilet, on the back side of a vent pipe, or by the trash receptacle.

QTY: CLASSIC – 500 Discs per Case // MAGNUM – 250 Discs per Case // HOOK – 100 per Bag

Our fragrances are the best because we use only the finest ingredients to ensure longevity and integrity of aroma.

Available in all fragrances:

- Lemon
- Tropical Breeze
- Wildflower
- Lavender
- Vanilla

Bad Odors Odor Trapping Agent

Components in Assure spray combine with the malodors in the air
The bad odors become neutralized
The bad room odors are gone

Exodor HVAC Disodorizer™ Treatment

Perfect for air conditioning odors, heat pump odors and furnace odors

Exodor HVAC Disodorizer eliminates odors at their source by killing and inhibiting the growth of mold and bacteria, which generate the malodors in HVAC ducts and evaporator coils. Exodor HVAC Disodorizer has been used effectively for over 15 years in the United States.

Exodor HVAC Disodorizer Treatment must be applied in aerosol form by using the Exodor high-pressure atomizing sprayer or other similar products.

- Combats air conditioning odors, heat pump odors and furnace odors
- Economical & easy to use
- Removes odor, improves indoor air quality

I have sold the Exodor HVAC product as a distributor for more than 10 years, and although we sell other Indoor Air Quality products, no other product has received as much positive feedback. It continues to be, by far, our frontrunner for resolution of ‘Dirty Sock Syndrome’. I highly recommend the Exodor product to all HVAC professionals.

QTY: Sold in Ready to Use quart sprayers (0.9 liter) or Super Concentrated 5 gallon (18.9 liter) and 55 gallon (208.2 liter) drums

Works with all types of portable and permanent atomizing systems.

- Contains natural essential oils
- Does not clog nozzles
- Non-toxic
- Environmentally friendly

Excellent for waste facilities
Banish!
GRAFFITI REMOVER, CLEANER & PROTECTANT

**Biodegradable**

**Fresh Scent**

- Effectively removes: markers, paint, pen, grease, tar, crayon, dirt, calcium build-up and more!
- Use on all non-painted surfaces.
- Helps prevent future graffiti by leaving a protective coating on treated surfaces.

**SAFER TO USE THAN AEROSOLS!**

**QTY:** Sold in 1 gallon (3.8 liter), 5 gallon (18.9 liter) and 55 gallon (208.2 liter) drums

**Exodor Plus Deodorizers**

Patented odor eliminator that destroys odors caused by smoke, mold, spoilage, garbage and more.

**QTY:** Sold in 5 gallon (18.9 liter) and 55 gallon (208.2 liter) drums

**Exodor Drain Deodorizer**

This oil-based deodorizer uses unique odor trapping technology available in three fragrance options: Meadow Breeze, Sunglow and Cherry. The product works most effectively in a drain with a trap or a waterlock system.

**How the Drain Deodorizer works:** The liquid forms a cap between the wastewater and the air above it, trapping the malodor compounds as they pass into the oil phase.

**Directions for use:** Pour Drain Deodorizer liquid through top of drain or grate. Use 30-60ml per dose.

**QTY:** Sold in 1 gallon (3.8 liter) and 5 gallon (18.9 liter) pails

Exodor Fragrance Spray and Washdown Cleaner

Use undiluted to spray surfaces near urinals and vent pipes to provide enhanced fragrance and odor control to the area. Can be diluted with water and used to clean toilet area. Leaves a lingering fragrance on surfaces.

QTY: Sold in 1/2 gallon (1.9 liter), 5 gallon (18.9 liter) and 55 gallon (208.2 liter) drums

Exodor Ultimate

WASTE DEODORIZER CONCENTRATE

Destroys Waste Odors at the Source

Exodor Ultimate Waste Treatment is developed to eliminate odors from the source of waste using appropriate spraying equipment. The product is a super concentrate which is diluted with water and sprayed over the waste where the odor originates.

Exodor Ultimate is the result of years of research and study into preventing and/or destroying foul odors by killing bacteria producing malodor in waste. The scientifically developed formulation destroys surface odors from hydrogen sulfide and ammonia gases coming from decomposing waste products, acting to eliminate odors at their source instead of masking or covering up the odor.

Now available in two fragrance choices

• Environmentally safe
• Non-toxic
• Super concentrated
• Non-corrosive to metal
• Powerful deodorizing performance
• Long lasting

Consult sticker labels for product use guidelines and recommended dilution levels.

Green Hornet

INDUSTRIAL STRENGTH CLEANER/DEGREASER

Green Hornet is an industrial strength cleaner/degreaser designed to remove heavy dirt, grime and grease in industrial and institutional applications. The biodegradable super concentrate can be diluted to various levels to clean auto engines, tires, concrete, bathrooms, heavy kitchen grease, to use as a wax stripper for floors, and many other applications.

• Biodegradable
• Super-concentrated
• Non-flammable
• Excellent carpet cleaner
• Excellent kitchen cleaner
• Removes mold and mildew
• Non-foaming – excellent for use in pressure washers

QTY: Sold in 1/2 gallon (1.9 liter), 5 gallon (18.9 liter) and 55 gallon (208.2 liter) drums

Bio-Active Grease Trap Treatment

Walex Bio-Active Grease Trap Treatment is offered in a dry formula as well as a liquid formula. These products provide biological treatment that successively digests and mineralizes oils, fats and grease material, and they help reduce clogging of pipes and to lower viscosity at pumping. For 500 liter grease traps, use initial dosage of 200g/200ml respectively to seed the system, then follow up each week with 100g/100ml of product for regular maintenance. Larger dosages may be required for larger grease-trap systems.

• Commercial formula powered by unique blends of bacteria and micronutrients
• 1 trillion CFU’s per kg of dry Bio-Active
• 2 trillion CFU’s per 4 liter pail of liquid Bio-Active
• Degrades fats, oils, and grease
• Reduces malodors
• Keeps pipes and drains from clogging and reduces pumping
• Available in powder and liquid

Particularly effective on toilet paper

The Bio-Active Fiber-Waste digester is an enzymatic product which is particularly effective on toilet paper, but will effectively digest any paper or cellulose-based material. The product is buffered at pH 4.5, mildly acidic, providing the best conditions for waste fiber digestion.

**Where to use the product:** Toilet waste holding tanks and other holding tanks with high content of waste fiber/paper material.

**Use directions:** Standard dilution rate is 1:50, but higher or lower dilution rates can be applied depending on the amount or nature of fiber/paper waste load.

Toilet paper digestion test with Bio-Active Fiber Digestion product at standard dilution level.
